

All Citizens Urged to Attend Soil Conservation Meet Here

Critical Moment for Local Office and Alton Camp as Landowners Prepare for Experiment Station Meet at 1 p. m. Friday

Friday's hearing to determine if the people of Hempstead county are interested in organizing a Soil Conservation District will undoubtedly determine whether Hope continues to have a Soil Conservation office and a CCC camp near here.

Japan Is Believed Near End of Her Chinese Objective

Wants to Capture Hankow and Then Hold Onto Coast Line

TO TAPER IT OFF Fighting Defensively Then Will Be Much Cheaper Business

TOKIO, Japan.—(AP)—Well-informed Japanese believe the war in China is nearly finished. For home consumption, however, Japanese officials continue asserting that Japan will continue fighting as long as Chiang Kai-shek remained head of the Chinese government.

The government is calling on the public to make great sacrifices, and it is believed the campaigns for thrift and "spiritual mobilization" would end quickly if the people believed the war were nearly over.

Fighting Will Dwindle It was an undeclared war, and informed Japanese believe it will be an undeclared peace. The war simply will peter out, falling in successive levels from active fighting to guerrilla warfare and then to a condition of peace.

Japanese military men say that "it may be possible to halt the offensive" after capture of Hankow and a drive toward the south. Whether this means taking the city of Canton, and Kwangtung province, they do not explain. However they plan to carve out a chunk of China, along the coastline, then stop.

Once they stop the positions will be reversed. Japan will be on the defensive, content to remain within the borders of the 400,000 square miles her army of some 600,000 has taken from China since the war started July 7, 1937, at a cost of \$5,000,000 a day. Chinese will be forced to take the offensive to dislodge them.

Chinese Not Effective Japanese army men have a genuine admiration for the Chinese soldier—but not as an offensive fighter. They point out that last August, during the early days of fighting at Shanghai, fewer than 10,000 marines defended the Japanese section of the city against an estimated 100,000 Chinese regulars.

"If the Chinese knew how to attack they could have pushed us into the sea," is their view.

Thus military men believe that when the Japanese army ceases to attack, the fighting gradually will slow down, then stop. In this inaction Japan would find two advantages—defensive fighting is cheaper and Japan would have an opportunity to start reconstruction of the occupied areas.

At the beginning, Japan professedly set out to "uproot Communism" in China and "chastise" the Chinese, until they change their attitude to one of co-operation with Japan.

Japan seldom hear such statements in Japan today.

Japan wants now to get out as cheaply and quickly as possible. Japanese believe that once Hankow is taken both honor and necessity will have been met. They do not see the possibility of China making a serious effort to get Japanese troops off the mainland.

40-Hour Week for Rural Mail-Men

But Some Will Likely Lose Jobs in Interest of Economy

WASHINGTON.—(AP)—A high ranking postal official guaranteed a 40-hour-week for rural letter carriers Wednesday, but said some jobs might be abolished in the interest of economy.

James W. Cole, acting assistant postmaster general, told the National Rural Letter Carriers' convention:

"There is a net annual saving of \$1,100 to \$1,200 when routes that are being served in two or three hours each are put together."

Absorption of near 5,000 routes since March 4, 1934, he estimated, has effected an annual saving of about \$8,050,000 although rural mail routes have been extended 19,500,000 miles.

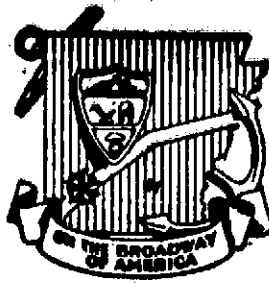

A farmer who had an orchard of Spitzenburg apples loaded his truck with them one day and drove to town to sell them wholesale for the best price he could get.

He found a buyer who offered him \$25 for the load. The farmer sold it at that price, but he found shortly afterward that the market had been going down, and a few days later he returned and bought the same apples back for \$20, feeling that he could sell for a better price when the market went up again.

The market did rise, and the farmer sold the load finally for \$35. What was his net gain?

Votes Questioned on Poll Tax Cut Further by Hope

But Washington Raises Question of Husband Assessing for Wife

DIVISION IN HOUSE

H. M. Stephens Voted for Hope—Mrs. Stephens for Washington

Hope further reduced the list of voters questioned as to the poll tax requirement, in Thursday's circuit court trial of Washington's county seat election contest—but Washington raised on 76 other votes the legal question whether an original assessment may be made for another person without written authority.

In the proceedings late Wednesday afternoon Attorney George Steele for Washington had introduced 76 original assessments to lay a basis for showing that they were not personally signed by the voters. He raised the question whether original authority can legally be given to make an original assessment for another.

On Thursday Mr. Steele called to the stand as hand-writing experts Mrs. Mattie Wilson and Miss Ella Monroe of Washington to show that the 76 original assessments were signed by the husbands instead of the wives to whom they were issued.

During Thursday morning Circuit Judge Dexter Bush permitted the Hope side to show that an additional 77 voters were valid as to the poll tax requirement, reducing the list of questioned voters on this score to 271. Hope had a margin of 460 in the county-seat election June 11.

Later Thursday morning Mrs. H. M. Stephens, wife of Blewins' former county judge, banker and cantaloupe king, was called to the stand to testify as to how many poll taxes had been paid by the Stephens firms. Mrs. Stephens said the total was 43.

Her husband was then called to the stand. Judge Stephens said he never seemed to be able to influence any body politically, and so he didn't try. He said he couldn't even influence his wife, and that Mrs. Stephens voted for Washington while he voted to remove the courthouse to Hope.

Corrigan Charms L. R. on Brief Visit

Trans-Atlantic Flier Is Greeted Tumultuously at Capital City

LITTLE ROCK.—An invitation to lunch brought Douglas Corrigan to Little Rock Wednesday.

He said himself at a luncheon given in his honor at the Albert Pike hotel, during a two-hour stop here. His hosts roared when he said, "I have never turned down invitations to lunch."

The "wrong-way" flier, who landed in Ireland, instead of California, on a flight from New York, was welcomed by large crowds at Adams Field and at the hotel.

His flashing grin apparently captivated those who greeted him. When G. R. Jones, Arkansas county, La. Miller, Woodruff county.

Recognized as progressive leaders for many years in their communities the farmers and their wives who shared in the honors were described as representing the best types of farming and rural leadership in the state.

33,000 Square Feet of Sidewalk Laid

Cost of WPA Participation Is Now Reduced to 10c Per Foot

There has been 33,000 square feet of sidewalk laid by WPA since the project was revived in February of this year, and applications are coming in every day for this work.

The reason for this is the opportunity of making the improvement at such a great saving. The usual cost of paving is between 30 to 40 cents a square foot, but with the WPA furnishing all labor and supervision, the cost is reduced to less than 10 cents per square foot.

Attention is called to the fact that the Federal Housing Administration will include the cost of this improvement in any loan for building or repairing property.

Those who want to take advantage of the saving in laying sidewalks by using WPA labor and supervision should call Charles Reynerson at the city hall, Phone No. 326.

Dewey and Hines Battling in New Round of Fight That Goes Back 150 Years Ago

Aaron Burr First to Use Tammany as a Vote-Getter

"Tammany" Quaintly Named After Indian by Anti-Britishers

POWER INCREASED

Hamilton Killed by Burr in Duel—Machine Survived Scandal

This is the first of three articles recalling historic clashes between reform groups and Tammany Hall.

By WILLIS THORNTON NEA Service Staff Correspondent

NEW YORK.—The prosecution of James J. (Jimmy) Hines by District Attorney Thomas E. Dewey on charges of conspiracy in a \$100,000,000-a-year policy racket, is the current scene in a drama that has been going on for 150 years.

The hero, Civic Righteousness, is being played this time by Tom Dewey much as it was played in an earlier day by Alexander Hamilton, by Thomas Nast, by Dr. Charles E. Parkhurst, Clarence Lexow, John W. Goff, Seth Low, and Samuel Seabury. And the villain, Tammany, is being played by Hines much as it was played in the past by Aaron Burr, "Boss" Tweed, Richard Croker, "Bill" Devery, and Jimmy Walker.

This drama, varying from low vaudeville to high tragedy, has been going on as long as there has been a United States, for Tammany Hall and the federal government were born at practically the same time. The battle has raged ever since, now with virtue triumphant, now with the villain again binding the fair city of New York to the buzz-saw of greed and graft while reformers hiss helplessly.

Conceived in Ridicule The name Tammany itself had a derisive origin. Before the citizens had organized into various clubs in loyalty to the Crown, called Sons of St. George, St. Andrew, and the like, in ridicule of these societies, New York revolutionists organized the Sons of St. Tammany, sardonically "colonizing" thus a wise local Indian chief of the same name.

At the time the federal constitution was adopted in 1789, a New York politician named William Mooney founded the Society of St. Tammany, to oppose aristocratic tendencies of the then ruling class and give a voice to plain people. The society was non-partisan, but displayed its strength in parades and banquets.

When partisan division began to be felt in the country, in 1798, Tammany naturally was anti-Federalist, and gravitated to the support of the Republicans (later the support of the Democrats). But Tammany earned its practical political A B C's from Aaron Burr.

Burr never was an actually enrolled Tammany man, and never wore the distinction of being Grand Sachem of the Hall. He was too elegant to daub himself with paint, crown his queue with feathers and whoop drunkenly down Broadway with his friend Sachem Matthew L. Davis and others, he was able to turn Tammany from a convivial social and drinking society into an efficient vote-getting machine.

All the tricks of modern political machines, the demagoguery, the bribery, the favors, the ballot-box-stuffing, and "delivery" of districts, were practiced and perfected by Burr working on Tammany through his friends. He card-indexed every voter in the city with notes on their views and circumstances. He organized every district. He built a political machine.

With Tammany support (Burr was the idol of the Tammany members) he won the senatorship from Philip Schuyler, father-in-law of Alexander Hamilton. The feud began there which ended on the heights of Westchicken.

Machine Long Entrenched In the election of 1800, New York held the balance of power. Using the Tammany machine, Burr raised funds, bargained and schemed, made promises. And the election was a stand-off between Burr and Jefferson, the choice in the House of Representatives finally favoring Jefferson by a single vote after 36 ballots. That same year Tammany men captured most of the municipal offices of New York City.

Tammany as a functioning political machine was thus entrenched 138 years ago.

When the Hamilton-Burr feud came to its tragic crisis in 1804, a Tammany

102½ Thursday Is Hottest This Year

Maximum Daily Temperature 100 or Better Every Day This Week

Thursday was the hottest day this summer.

The mercury touched 102½ degrees at 2 p. m. on the official instruments of the Fruit & Truck Branch Experiment Station. On Wednesday, when the temperature was reported as 101 at 2:30 p. m., the heat finally got up to 102—beaten by half a degree on Thursday.

Temperatures this week have been: Monday 100; Tuesday 102; Wednesday 102; Thursday 102½ for the hottest sustained stretch this season.

Spaniards Throw Everything But Bull

ZARAGOZA, Spain.—(AP)—When a bullfighter puts on an especially daring act, Spaniards show their appreciation by tossing hats, coats, fans, wine pouches and cigars into the arena. The torero and his assistants don't mind the trouble of tossing the articles back into the stands. It wouldn't have been a genuine ovation otherwise.

MIND Your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Is it correct to address a wedding invitation to "Mr. and Mrs. David Leonard and family"?
2. Is it necessary for each grown member of a family to receive a separate invitation?
3. In a formal invitation which is the preferred form "Mr. S. Brown" or "Mr. Stephen Brown"?
4. If two or more hostesses are entertaining and you know only one of them, would it be all right to send your reply to her?
5. If you knew all of the hostesses, to whom would your reply be sent?

What would you do if— You do not receive an invitation which you have reason to expect? For instance, other members of your family have received a wedding invitation and you have not?

- (a) Make the best of it and do nothing?
- (b) Inquire at the post office to see if it was misrouted?
- (c) Have a friend make inquiries?

- Answers
1. No.
 2. Yes, except a man and wife.
 3. Latter.
 4. Yes.
 5. To one in whose house the party is to be given.
- Best "What Would You Do?" solution (a).

Star on Sunday to Photograph Students Leaving for College

All students in the Hope trade territory who are going away to college this fall are asked to meet on Hope city hall lawn at 2 o'clock this Sunday afternoon, August 28 to make a group photograph which Hope Star will publish in its forthcoming "Back to School Edition."

The sole purpose of the meeting is to get a picture for the newspaper, and there are no charges whatever. The same kind of a picture was made last year.

The Star has set the meeting for 2 o'clock Sunday afternoon so that employed boys and girls will have an equal chance to get into the picture.

Students are welcome from any point in the territory, and an invitation is particularly given to those residing in Prescott and other points outside of Hope.

Weinberg Sticks to His Testimony

Denies Counter-Charge That He Stole \$300,000 From Schultz

NEW YORK.—(AP)—Unruffled under a raking cross-examination, George Weinberg, 36, business manager of the old Dutch Schultz gang, Thursday denied accusations by counsel for James J. Hines that he stole \$300,000 from the Schultz "policy empire."

Weinberg, resuming his testimony against Hines, Tammany district leader who is on trial on charges of conspiring to extend political protection to the gang, was questioned closely about the Schultz treasury.

Certain 12 Dead in Chinese Plane

Only 3 Survivors Accounted for After Jap Aerial Attack

HONG KONG, British Crown Colony.—(AP)—Air line officials said Thursday night they believed at least 12 persons died inside the Chinese American airliner which was forced down and machine-gunned by Japanese warplanes Wednesday between Canton and Macao.

Only three of the survivors who reached Macao had been definitely accounted for Thursday night—Pilot H. L. Woods, Radio Operator Leo Loh, and Passenger C. N. Lou—although earlier reports said two wounded Chinese passengers were in a hospital at Shekhi, north Macao. Passenger Lou also was wounded.

Woods, who Macao aboard a sampan, and then was brought to Hong Kong aboard the United States gunboat Min-danao, said he believed all the missing were killed or wounded in the machine-gunning of the plane.

A Thought

Not all the pomp and pageantry of worlds reflect such glory on the eye supreme, as the meek virtues of the holy man.—R. Montgomery.

Paving 29 and 79 Is Urged Thursday at State Meeting

South Arkansas Delegates Appear Before Highway Commission

NEW BID ON NO. 82

5.5 Miles of Blacktop Scheduled Between Buckner and Waldo

LITTLE ROCK.—(AP)—The State Highway Commission received bids Thursday on four road construction projects in five counties.

The jobs and apparent low bidders included: Lafayette and Columbia counties: 5.5 miles of blacktop between Buckner and Waldo on U. S. Highway 32; Pioneer Construction company of Malvern, \$36,350.50.

Meanwhile, asserting that oil development had caused a heavy increase in traffic during recent months, directors of the South Arkansas Highway association urged the State Highway Commission to provide additional paving for that section.

After a dozen speakers had been heard Thursday, Commission Chairman Paul W. Sheridan thanked the delegates for coming to Little Rock, and said:

"You may rest assured that it is the intention of this commission to give your section a fair share of the money as it becomes available."

L. L. Mitchell

L. L. Mitchell, Prescott, president of association, told the commission:

"We're trying to work with you and help you."

"You know you have more demands for roads than you have money for. We feel that you want to be fair, and we appreciate the construction which we received in recent weeks."

C. G. Martel, secretary of the Magnolia Chamber of Commerce, said the dust arising from roads in Columbia county "in the past three weeks has given everyone a cold." "We're getting considerable oil development now, and traffic is becoming heavier," he said. "We are particularly interested in getting a paved outlet to Louisiana where the major oil companies are located. Such a road would bring us trade from the paper mill at Springfield, La."

For Highway 29

Jonah Reeves, Lewisville, Lafayette county judge, said:

"A little blacktop on State Highway 29 from Hope to the Louisiana line would give us a direct connection with New York and California."

Charles C. Colquitt, Magnolia, said paving U. S. 79 through south Arkansas would prove valuable if the United States were attacked through Mexico. "If we had a war on the borders of Texas and Mexico, paving this highway would provide a direct route for transportation of soldiers from the East down there to repel the attack," he said.

U. S. 79 runs from Memphis through Pine Bluff to Shreveport, La., and Austin, Texas.

S. E. Powell, Hamburg, Ashley county judge, said he was "looking forward" to the completion of U. S. 82 across south Arkansas from Greenville, Miss., to Texarkana. He advocated immediate closing of a gap from Hamburg to Crossett.

Dave Cash of Rison, Cleveland county judge, said a paved road from Warren north to Pine Bluff or Rison should be laid.

Enmett Sanders, representing Pine Bluff Chamber of Commerce, said Jefferson county residents considered the condition of U. S. 79 from Pine Bluff 10 miles south "an outrage." He asked that hard-surfacing provide a paved route from Louisiana and Texas to Pine Bluff.

C. E. Palmer, Texarkana publisher, said:

"I think south Arkansas made a good presentation here today which ought to bring results."

2nd Lieut. Couch Named to the Reserve Corps

WASHINGTON.—(AP)—The Department of War announced Thursday that Second Lieutenant Clifton Zachary Couch, Jr., of Magnolia, had accepted appointment to the Officers Reserve Corps.

Girl Scout Meet

Girl Scouts of the Fourth troop will meet Friday afternoon at 5 p. m. at cabin at Fair park. Bring refreshments and five cents for cold drinks. At this meeting a group picture will be taken.

Cotton

NEW ORLEANS.—(AP)—October cotton opened Thursday at 8.33 and closed at 8.34.

Spot cotton closed steady five points up, middling 8.29.

The World's "Security"—At the Point of a Gun

A SUFFICIENT number of young men having died to cool the ardor of both sides, the Japanese and Russians seem to have agreed that they will not go to war—not now, anyway—to decide which nation had title to that scrubby hillock in Manchuria.

So another war scare blows over, and the world gets one more chance to take a look at the direction in which it is traveling. What it sees can hardly be reassuring, but the immediate danger is lifted and we are all right... until the next time.

It isn't especially comfortable, this business of living in a world which is forever teetering on the edge of an abyss. While all of the great powers are spending fantastic sums on armaments to provide "national security," the plain fact is that there is less security in the world now than at any time since the dark ages.

PERHAPS the basic reason for this insecurity is the fact that we have the wrong idea of what security really is. Each nation seems to be convinced that it can get security only at the expense of someone else. In line with this idea, it must maintain great armies and air fleets; it must maintain great armies and air fleets; it must be self-sufficient economically, it must produce within its own borders everything it needs, it must get the better of the rest of the world in all of its commercial deals.

That might be a good idea if it would work; but it won't—not when every great nation has the same idea. What it produces is eternal unrest, unending rivalries, and conflicts of interest which point directly toward war.

There might be a better way to get security. The nations might agree that since war is a civilization-shattering evil, they would at all costs settle their disputes peacefully—by arbitration, by mediation, by the judgment of third parties in international tribunals. They might further agree that they would unite to restrain any nation which resorted to force before all such avenues of settlement had been tried.

THAT was the procedure which was envisioned in the Kellogg pact, the World Court, and the League Covenant. The world has turned its back on this procedure, scoffing at it as "idealistic," "visionary" and so on.

Perhaps those adjectives are justified. But the present system certainly doesn't seem to be working out very well. In the end, isn't it quite possible that we shall all have to return to some form of the plan that Wilson and Kellogg advocated? With all its faults, that plan at least offered the world a chance to get away from the edge of the precipice.

Brains and Lanes

FOR whiling away a rainy hour in fits of merriment there's nothing like sitting and thinking about the human mind.

New commentary on its habits comes out of a report from the meetings in Ann Arbor, Mich., of the National Institute for Highway Safety Training. The three-lane highway, according to a prominent traffic engineer, is, oddly enough, a safer road to drive on than the super-highway of four lanes.

It seems that drivers have learned to regard that center stretch on the three-lane road as a kind of no-man's land, and avoid it, with thoughts of head-on collisions in their mind. But when the same drivers get on a four-lane highway—which has no dangerous lane—they have nothing visible staring them in the face as a warning. So they get out smack in the center and drive as rapidly as possible where there is no lane at all, and as often as not greet one another through their windshield.

From the same traffic conference comes the assertion that nation-wide tests have shown that the high-grade moron is, in general, the best driver—better than the genius. Evidently the high-grade moron likes to follow groves—or lanes. The low-grade moron can't. The genius won't. Friends, we're funny animals.

The Family Doctor

T. M. Reg. U. S. Pat. Off.

By DR. MORRIS FISHBEIN
Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine.

Specialists Study Relationship of Modern Life to Heart Disease

Some questions which are constantly in mind concerning disturbances of the heart have recently occupied the attention of the specialists in the diagnosis and treatment of heart disease. Recently a distinguished biometrician found that as non-smokers do not live as long as smokers. However, does this mean that tobacco is to blame or does it mean that people who smoke to excess also do other things to excess?

Dr. Paul D. White has asked the question, "Is it simply so-called 'wear and tear' that is responsible for the increasing mortality among our young and middle-aged men from coronary disease, or are there not other causes at present that in some manner result from our modern way of life?" He asks also "Why is it that under the age of 40, the incidence of coronary disease is 24 times greater among males than among females?"

Doctor White is concerned with a number of other questions which ought to concern everyone of us. He wants to know if it really harms the arteries to eat diets rich in cream, butter, and eggs. He wants to know if we are over-feeding young people in developing a robust generation of girls and boys. He wants to know whether the true and fancied evils of undernutrition, particularly for sedentary work-

ers, have been responsible for bringing about an increase of heart disease. Another question which Dr. White asks has to do with exercise. Thus he inquires, "Would not our hearts and our muscles and pocketbooks and city streets, benefit by the resumption of our legs either in walking or cycling, with the relegation of motor cars to some special occasion when it is really necessary or advisable to use them?" Finally he wants to know what influence the weather has on the incidence of heart disease.

It is not possible at this time to give an absolute answer to all of these questions.

Such experiments as could be performed in order to find out the answer would involve great numbers of people under varying conditions. All that we have at present on which to make answers are impressions based on years of practice or observation by men who have specialized in the diagnosis and treatment of heart disease.

It is a general impression that there has been a great increase in hardening of the arteries among the Japanese during the last two decades. Japanese observers ascribe this to adoption of the occidental mode of living.

These are questions which definitely

Delivering Some Winter Fuel for the Capitol

concern the life and health of everyone of us.

No doubt the health section of the League of Nations or some similar organization will attempt a worldwide study to settle some of these points, because it is only by comparative study, involving great numbers of people in different parts of the world, that the answer can be found.

A former prize fighter has been arrested in an eastern city on a worth less check charge. Tsk, tsk; from diving to bouncing.

First entry in the Michigan State Fair quilt contest was a quilt made of 30 miles of thread—as the needle flies.

I like the way modern mothers fix up their children's rooms. Dickie no longer sleeps midway between the sewing machine and the clothes hamper, in the shabby hideaway delegated to utility, while the big south room waits in empty grandeur for the twice-a-year guest to justify its name.

Maybe Dick does have the hall room, depending on space and the size of the family, but now he has a book-shelf, more shelves for trophies, a desk and closet. One thing a man needs more than anything else, and of course boys, is a place for junk. We call it junk, anyway, we women who prize our fluffs and our silks; but to the male heart, any kind of hardware is more precious than rubies. Skates, saws, hammers and flintlocks need

stabling. Besides other articles too numerous to mention. Meaning that no man from five to fifty was ever known to throw away anything more precious than a burnt match. They are hoarders, men are.

So the modern mamma has at last acknowledged defeat and moved over. Now she makes a place for her menfolk. And Dickie has his heaven and Daddy has his den. At least we hope so.

About daddy, I mean. The next move toward the improvement of the human race will probably read "The Care and Betterment of Fathers."

Then they'll be sure to have a corner to themselves, just as the children have now, and I am willing to be the first to endorse this campaign.

Everyone in the house needs a place to himself, if possible. Mother, Dad, Dick and Joan each need an altar of freedom, to which they can retire and call their souls their own.

The instinct for privacy is strong. Yes, it has to be done, sister sharing with sister and brother with brother, when families grow faster than incomes. And in one way it is just as well, because sharing is good for everybody and selfishness thrives so nicely in aloneness. Too much comfort and undisturbed peace may unfit us for fellowship. To live undisturbed fixes habit.

However, there is so much to be said for the other side that I think it wins. It does not follow that a private room to one's self always leads to selfishness.

Wherever children sleep and have their being, it should be a place to breed self respect. Pride beckons to care, and beauty to order. Boys love color as well as girls. Let's not forget that.

Alfalfa first was cultivated in Europe more than 2000 years ago.

Put O'Brien, a priest, goes to Cag-

ney in his death cell and tells him that one thing he can do toward atonement for his sins is to turn yellow, to eringe and gibber and shriek, and thus destroy the adoration of a bunch of youngsters who have considered him a very tough and fearless gangster.

Enter the Order of Delicateness. This makes a swell twist for a routine crime story. But during the climax the thing dips very close to routine mellerdrammer as the camera scans the faces of the witnesses at the electrocution of "Rocky." There is a strong odor of luan.

At one point during the height of Cagney's writhings and pleadings a reporter exclaims, "Gad, what a story! —Rocky Turns Rat!"

This is sheer burlesque. No witness could have uttered a word during Cagney's exhibition. No reporter, even under articulate circumstances, would have said, "Gad, what a story—Rocky Turns Rat!" The false note almost certainly will be cut before the picture reaches the screen.

The script writers also did a clumsy job with the vital sequence in which O'Brien goes to Cagney's cell to try to persuade him to act the coward. There were seven pages of dialog, alternately noble and drooling and resolutely tough.

The two actors said no, it wasn't right. They sat down and cut and rewrote the seven pages into three pages. They deleted most of the heroics, leaving a straightforward, quiet conversation between a priest and a gangster who once had been pals.

It was a sequence on which some actors might have spent days. These two just went in there and played it as they felt it. And that was that.

The Istanbul, Turkey, City Council is going into the transit business to the extent of a \$400,000 loan voted to buy buses and build municipal garages.

What of the mood music, and the tall screens shielding sensitive players even from the eyes of technicians, and the pyrotechnic temperaments, and the trance-like condition of actors who seem to live under spells of their own weaving? There is one fellow who's said to sleep in his makeup, and he may not even speak to his wife for weeks at a time lest he shatter the auto-hypnotic mood of his characterization.

Cagney, of course, is a notable under-player of scenes, except in those of such dramatic intensity as his execution. And even in this execution he was supposed to be laying it on extra thick, deliberately simulating terror as a deterrent to the hero-worship of the Dead End Kids.

It was a sequence on which some actors might have spent days. These two just went in there and played it as they felt it. And that was that.

The Istanbul, Turkey, City Council is going into the transit business to the extent of a \$400,000 loan voted to buy buses and build municipal garages.

What of the mood music, and the tall screens shielding sensitive players even from the eyes of technicians, and the pyrotechnic temperaments, and the trance-like condition of actors who seem to live under spells of their own weaving? There is one fellow who's said to sleep in his makeup, and he may not even speak to his wife for weeks at a time lest he shatter the auto-hypnotic mood of his characterization.

Cagney, of course, is a notable under-player of scenes, except in those of such dramatic intensity as his execution. And even in this execution he was supposed to be laying it on extra thick, deliberately simulating terror as a deterrent to the hero-worship of the Dead End Kids.

Put O'Brien, a priest, goes to Cag-

ney in his death cell and tells him that one thing he can do toward atonement for his sins is to turn yellow, to eringe and gibber and shriek, and thus destroy the adoration of a bunch of youngsters who have considered him a very tough and fearless gangster.

Enter the Order of Delicateness. This makes a swell twist for a routine crime story. But during the climax the thing dips very close to routine mellerdrammer as the camera scans the faces of the witnesses at the electrocution of "Rocky." There is a strong odor of luan.

At one point during the height of Cagney's writhings and pleadings a reporter exclaims, "Gad, what a story! —Rocky Turns Rat!"

This is sheer burlesque. No witness could have uttered a word during Cagney's exhibition. No reporter, even under articulate circumstances, would have said, "Gad, what a story—Rocky Turns Rat!" The false note almost certainly will be cut before the picture reaches the screen.

The script writers also did a clumsy job with the vital sequence in which O'Brien goes to Cagney's cell to try to persuade him to act the coward. There were seven pages of dialog, alternately noble and drooling and resolutely tough.

The two actors said no, it wasn't right. They sat down and cut and rewrote the seven pages into three pages. They deleted most of the heroics, leaving a straightforward, quiet conversation between a priest and a gangster who once had been pals.

MRS. SID HENRY

TELEPHONE 821

If you can't be a pine on the top of the hill,
Be a scrub in the valley—but be
The best little scrub by the side of the
hill;
Be a bush if you can't be a tree,
If you can't be a muskie, then just be
a bass—
But the liveliest bass in the lake!
We can't all be captains, we've got to
be crew,
There's something for all of us here,
There's a big work to do and there's less-
er to do,
And the task we must do is the near-
est, if you can't be a highway then just be
a trail,
If you can't be the sun, be a star;
It isn't by size that you win or you
fail—
Be the best of whatever you are!
—Douglas Malloch. (Reprinted

I would like to say to the readers
of this column, that it gives me great
pleasure to repeat any poem appearing
in this space, to assist you in recall-
ing some familiar poem.

Mr. and Mrs. Royce Smith have as
guest this week, Miss Mary Ellen
Lindvall of Malvern.

Mr. and Mrs. J. C. Broyles and
daughter, Miss Louise, who have
been guests of Mrs. Nellie Turner, and
the Dorset McElrea for the past month
left Thursday morning for their home
in Seaside, N. Y.

Miss Emmaline Toler of Malvern is
the house guest of Mr. and Mrs. H.
V. Herndon Jr.

Mr. and Mrs. Kelly Briant will spend
the week-end visiting with friends in
Fayetteville.

Mr. and Mrs. Carl Bruner and daugh-
ters, Misses Carlene and Francis were
Thursday guests of the Dr. J. T. Mat-

thews family on Lake Catherine at
Hot Springs, where J. T. Matthews Jr.,
is taking a summer course in music.

Mrs. Charles Haynes and daughter
Miss Mary and son Charles have re-
turned from a two month's stay in
Marion, Ala.

Mrs. C. O. Sutton who is spending the
summer vacation with her daughter,
Mrs. Kelly Briant and Mr. Briant will
spend the week-end in Little Rock.

The 12 year old girls Sunday school
class of First Baptist Sunday school,
Miss Mamie Bell Holt, teacher en-
joyed a delightful swim followed by a
picnic lunch on Wednesday afternoon
at Embree's lake, South Main street.
The party included Misses Lois Lee
Varner of Sherman, Texas, Martha Sue
Stock of Wadley, Virginia, Goynes,
Maxine White, Marion Crutchfield,
Betty June Monts, June Duke, Emma
Pearl Slade, Virginia Keith, Betty
Jean and Sarah Jane Murphy, with
Miss Holt and Mrs. S. L. Murphy
chaperoning.

Wallace Van Sickle, J. T. Luck and
Tom Turner left Thursday afternoon
for Little River Country Club where
they will join Miss Martha Houston's
house party for the week-end.

Miss Rebekah Norton has returned
from a very delightful trip on the
Northwest coast and Alaska. Miss
Norton made the trip via plane and
boat, visiting many interesting points
going and coming; she is most en-
thusiastic as most visitors to Alaska
are, over the wonderful beauty of the
flowers and the luxuriant growth in
that country.

Mrs. P. D. Smith and daughter, Miss
Margaret Faerol Smith of Dallas, Tex.,
were Wednesday night guests of Capt.
and Mrs. R. A. Boyett, enroute to
Texarkana to join Mr. Smith for the
funeral services held for his mother,
Mrs. M. A. Smith, wife of the late Dr.
Smith formerly of Texarkana. Mrs.
Smith passed on August 23, at the
home of her daughter, in Houston.
Funeral and burial will be held in
Texarkana Thursday afternoon.

Master Tony Boyett has returned
from a visit with relatives in Dallas,
Texas.

Miss Bettie Jane Childers of Ash-
down, is visiting her aunt, Mrs. C. C.
Westerman.

**Flew 600 Miles for
Supply of Steaks**

MIAMI, Fla.—(AP)—Walker P. Inman,
wealthy sportsman pilot of George-
town, S. C., wanted a supply of fresh
Florida steaks.
He tuned up his plane and flew here
with his plantation cook to restock his
larder. The 600-mile flight, plus the
purchase price of 140 pounds of steak,
came to \$238.04.

Rest Room Proves Boon to Shoppers

Some Furniture Still Need-
ed for Room, Accord-
ing to C. of C.

More than a thousand women who
have visited the Hope Rest Room will
gladly testify that the outstanding
improvement in Hope during the past
year has been the opening of this great
convenience for women shoppers,
especially rural women.

The comfortable chairs, ice water,
nursery, toilet facilities and other con-
veniences have made it a real asset
not only to shoppers, but merchants
as well. One woman remarked recent-
ly that she would go miles further to
shop in a town which not only ad-
vertised but proved that it appreciated
her trade.

The rest room is not fully furnished
and the Chamber of Commerce
hopes that the citizens of Hope will
keep this in mind when they have
tables, chairs, and other pieces of fur-
niture that will add to the comfort or
appearance of the place. Those who
have should call Mrs. W. C. Allison or
the Hope Chamber of Commerce. Pic-
tures and magazines will be gratefully
received.

Every woman in Hope is urged to
visit the Rest Room and see for her-
self how attractive it is and how well
it is being operated by representatives
of the N.Y.A., without cost to the citizens
of Hope.

Corrigan Charms

(Continued from Page One)

Memphis. "We were afraid you'd land
at Chicago or somewhere," Mayor
Overman said, greeting the flyer.

Corrigan laughed.
The diminutive pilot kept up a
stream of witicism at the luncheon.
The best was his grinning admission
that he even kidded the lie-detector
with which someone at Boston tested
him on the truthfulness of his story
that he "got turned around" and flew
to Erin, alone, with 30 cents in his
pocket, in a 900 five-cylinder plane,
without finding out the difference un-
til he was there.

The lie-detector works on "blood
pressure," he said. When the test
"cuff" was strapped on his leg under
the table.

"Before I answered a question, I
moved my leg muscles which changed
the blood pressure, and the machine
showed a 'jump,'" he said. The ma-
chine "jumped" at everything, re-
gardless of what he said, and that
doesn't mean much, he argued.

With a grin, he insisted that his
flight across the Atlantic was "acci-
dental." "How did you happen to get
mixed up?" he was asked. His answer
was: "I don't know."
The flyer's visit brought out swarms
of amateur photographers, all anxious
to get into a position for a "shot."
They climbed on cars, elbowed through
the crowd and stood on tip-toes to
focus their cameras.

During a "rest" before luncheon, he
did a land office business shaking
hands, giving autographs and posing
for camera enthusiasts.

An Example
"Yes," said the young wife, proudly,
"father always gives something ex-
pensive when he makes presents."
"So I discovered when he gave you
away," the young husband replied
pleasantly.

Model Husband Slays His Rival

Her husband was "the ideal
man" but she loved another,
Mrs. Margaret Sikora, 22, at top,
told Chicago police after model
husband Rudolph, lower photo,
pumped five bullets into Edward
Solomon, the other man. "Rudy
always gave me his paycheck,
but Eddy gave me romance and
love," exulted Mrs. Sikora.

Hark! Hark! Is This Dog De-Barked?

A very ladylike dog is "Gretel," as anyone can see by looking at
the picture above, but the neighbors in Buffalo are complaining
about the noise she makes, despite the fact that a "de-barking"
operation was performed some time ago. Judge Charles T. Yeager
ordered a neighborhood poll to determine how well Gretel's
master, Fred F. Schoepflin, succeeded when he had the dog's vocal-
cords severed after neighbors complained previously. Some wit-
nesses said the Doberman pinscher still could bark loudly; others
said the best Gretel could do was a "soft cough." The judge
will rule Sept. 22.

Cotton Picker to Aid Humanity, Too

Rust Brothers to Use Prof-
its to Help Farm
Workers

MEMPHIS, Tenn.—(AP)—John and
Mack Rust, co-inventors of a mechan-
ical cotton picker, announced Wed-
nesday the formation of the "Rust
Foundation," through which they pro-
pose to apply a large part of their
personal profit on the invention to up-
lift agricultural workers of the South.
They said all income they realize
from their invention, above the limited
income set for themselves, would go
to the foundation in an effort to make
the picker "a blessing instead of a
curse" to displaced labor.
The articles of incorporation said
the foundation would "aid in the re-
habilitation of disemployed share-
croppers and farm laborers of the cot-
ton growing states . . . and carry on
experiments, research and educational
work with a view to finding a per-
manent solution to our problems of
poverty and unemployment, and above
all to preserve and extend our civil
liberties."
The Rusts plan production of ma-
chines on a commercial scale for the
1939 picking season. An assembly of
half a dozen pickers for operation in
the fields this year is being complet-
ed.

The Nazis Eliminate Most of the Hoboes

BERLIN.—(AP)—The day of the hobo
seems over in Nazi Germany. When
Hitler took power, approximately
200,000 "knights of the road" roamed
the country.
Nazi officialdom has devised means
of keeping a closer check on these
wanderers, with the result that there
are only 22,787 of them left, according
to latest statistics. The decrease is
attributed to various job creation
schemes.

Assumes Full Responsibility
"So you want a job as assistant un-
derwriter?"
"Yes, sir."
"Do you fully understand your re-
sponsibility?"
"Yes, sir. When you make a mis-
take, I take all the blame."

He Knows
Dr. Sycem: "Yes, Mr. Crabshaw,
I'm positive that it is some chronic evil
that has deprived you of your health
and happiness."
Crabshaw: "Sh-s-sh! For heaven's
sake, Doc, speak softly—she's waiting
in the next room."

Every state, Alaska, Hawaii and the
District of Columbia now have divi-
sions of maternal and child health in
their public health services.

NEXT: The "Tweed Ring" makes
Tammany a symbol for political
corruption for all time to come,
and Reform rings through the '70s.

Deny East's Funds in Poll Tax Fight

Roy Prewitt Scouts Story
by Washington Post
Correspondent

LITTLE ROCK—Roy Prewitt, di-
rector of the Voters Campaign Com-
mittee, an organization which seeks
to abolish the poll tax as a require-
ment for voting in Arkansas, issued a
denial Wednesday of a report publish-
ed in the Washington Post that "East-
ern money" was being used to help
finance his group's campaign against
the poll tax.

"We have not received one cent of
outside money," Mr. Prewitt said.
"There have been few contributions
from any sources in this campaign. All
work that has been done has been
done voluntarily."

The Voters Campaign Committee is
working for passage of a proposed
constitutional amendment in the No-
vember 8 general election which would
discard the poll tax and inaugurate a
registration system.

The article referred to by Mr. Pre-
witt was written by Sidney Olson, a
political writer for the Washington
Post who came here shortly before the
August 9 Democratic primary on an
observation tour of political trends in
the South.

The article said in part: "Arkansas
contribution to Prewitt's campaign
have so far been scanty—in fact,
totaling less than \$10 although he has
not been after contributions up to this
time. But Eastern money is beginning
to flow in from sources unknown to
this reporter."

AFL Refuses Bid to Latin America

Mexico City Meet a Gath-
ering of Radicals,
Green Declares

ATLANTIC CITY, N. J.—(AP)—Pres-
ident William Green of the American
Federation of Labor refused Wednes-
day to join the rival CIO in setting up
a new Latin-American labor organi-
zation. He hinted at extension of the
CIO-AFL of L fight into an inter-
national arena.

Green turned down an invitation
from Vincente Toledano, general sec-
retary of the Conference of Mexican
Workers, to attend a meeting Sep-
tember 5 in Mexico City where labor
leaders from North and South Amer-
ica have been summoned to organize
the Latin-American Trade Union Con-
gress.

John L. Lewis' CIO also has been
invited to the conference and, it is
said, may be represented there by
Lewis and several aides.

"I regard it as a meeting of ex-
treme leftists and Communists," Green
said at a press conference.
"Because of this type of leader-
ship," he added, "the American Fed-
eration of Labor could not subscribe
to the economic and political philoso-
phy which they proclaim, and which
will be sponsored and approved at the
conference."
"We are of the opinion," Green de-
clared, "that it is being promoted for
the purpose of advancing the cause
of Communism in Latin-American
countries. The CIO in all probability,
will be there to represent its member-
ship."

Increase in the demand for women
workers has been greater in offices than
in other occupations.

No Rule Without an Exception

A clergyman had cause to reprove
one of his parishioners. The latter lost
his temper, and as a parting shot
shouted:

"If I had an imbecile son I would
make him a minister!"

"Your father thought differently,"
replied the cleric meekly.

T. E. Spragins to Join Kroger at Little Rock

T. E. Spragins, for the past year
agent for Metropolitan Life Insurance
company, resigned this week to accept
a position with the Kroger Grocery &
Baking Co. of Little Rock.

Prior to his position as Metropolitan
Insurance agent in Hope, Mr. Sprag-
ins was connected with the Richie
Grocery company for 14 years. He will
be succeeded by R. M. Milburn, former
agent who was seriously injured in
a car wreck in June, 1937.

Mr. Spragins leaves Hope Monday to
report for his new duties with the
Kroger company.

The tail of a comet always points
away from the sun.

Everybody Needs This Vital Nerve Food*

5 Health Benefits Found In Delicious Quaker Oats

*Yes, it is now known that all ages should have a new daily supply of a precious food for nerves, called Thiamin (Vitamin B₁). Thiamin nourishes nerves, affecting almost every bodily function—yet when lacking makes perfect health impossible. Oatmeal is the richest source of Thiamin, which the body cannot store. Thus, for your whole family, Thiamin is thrifly available—found in a delicious Quaker Oats breakfast. Remember, too, that oatmeal is outstanding for other health essentials—high in proteins, food-energy; valuable minerals (iron and phosphorus). Easy to prepare, too, highly digestible. Saves time, money. Start getting the benefits of Quaker Oats now. Order a package today.

QUAKER OATS

AMERICA'S POPULAR YEAR 'ROUND BREAKFAST

Homemakers' Exchange

of Helpful Household Hints and Recipes

Conducted by ELEANOR HOWE

When pressing a pair of trousers,

try putting a little raw starch in the water used for dampening the pressing cloth. You, as well as the man-of-the-family, will be delighted to see how much longer the trousers stay pressed when this is done.

If you've ever been bothered with the wandering crumb problem when grating or grinding bread, simply grate—or grind—the bread inside a large paper bag. This not only solves the problem but leaves the crumbs in the paper bag, ready for storing, as well.

If the name BANANA BUTTER-SCOTCH ICE CREAM sets up little appetite longings, this recipe guarantees that the outcome will be even nicer than the anticipation:

Combine 1 pint milk, 1 pint coffee cream, 1 cup brown sugar and a dash of salt, and heat to the scalding point. Remove from flame and slowly stir in 2 well-beaten eggs. Cool and then blend in ½ cup ripe banana pulp and 1 tablespoon vanilla extract. Pour in freezing container of modern ice cream freezer, filling it not more than ¾ full; assemble freezer and cover. Surround with a mixture of 3 parts crushed ice and 1 part rock salt. Turn crank slowly but steadily for 5 to 10 minutes, or until turning becomes difficult. Then carefully remove cover, lift out dasher, and pack down ice cream with a spoon. Replace cover and draw off water. Replenish ice and salt mixture, cover, and allow to stand at least 1 hour before serving. Serves 6 to 8.

If you want to save a lot of time and bother when you are measuring a hem for a dress, just fasten your yard stick into a monkey wrench. This will keep the stick or ruler upright without being held, and the wrench is weighty enough to "stay put." Then all you have

to do is to put the pins in place while the person being fitted turns slowly around.

Keeping pantry and cupboard shelves clean is indeed a task, even when they are covered with oilcloth. You will find, however, that the oilcloth will stay clean much longer if you apply a thin coat of floor wax, rubbing it in well. The wax coating also prolongs the life of the oilcloth as cans and jars will not stick to the surface. Rewax about once a year.

The lenten season welcomes a temper-saving suggestion such as this for all homemakers who have been bothered with having fish stick to the pan. First, heat the frying pan. Then shake a little salt into it (the amount that would ordinarily be used to salt the fish) and let it brown and jump about before adding the lard or other cooking fat. When the fat is hot, add the fish, dipped in egg and flour or cornmeal, and fry slowly. The fish will not stick at all.

Here is a most unusual and delectable sandwich spread that can be made up and stored in the refrigerator for "snack-time" occasions:

Place 2 teaspoons dry mustard, ¼ cup sugar, ¼ teaspoon salt and ¼ cup milk in top of double boiler. Blend in 2 slightly-beaten eggs and ¼ cup mild vinegar and cook, stirring constantly, until thickened. Remove from flame and add 2 tablespoons lemon juice, 6 tablespoons soft butter, and one 3-oz. package cream cheese. Stir until blended, and then add ¼ cup pimiento (chopped), ¼ cup olives (chopped), 2 tablespoons pickle (chopped), and 1 tablespoon green pepper (chopped). If stored in the modern air-conditioned refrigerator, this filling need not be kept in a covered dish. In the clean, washed, vitalized air it will retain its smooth consistency and natural piquant flavor for a week or so. Makes 1½ cups; of sandwich filling.

5-MINUTE ICE CREAM FROM FRUIT AND CREAM

NEXT to serving just plain fruit and cream, what could be simpler than FROZEN FRUIT CREAM, which is nothing more than a mixture of left-over canned fruits and coffee cream, frozen in 5 to 10 minutes in the modern ice cream freezer! It seems almost unbelievable that such a smooth, fluffy frozen dessert could be so easily and inexpensively made. But here's how:

FROZEN FRUIT CREAM

Serves 4-5

2 cups canned fruit with fruit juice (raspberries, apricots, or peaches)

¼ cup sugar (approximately)

1 cup coffee cream

Mash fruits and stir in sugar. Combine with cream and pour in freezing container of modern ice cream freezer, filling it not more than ¾ full; assemble and cover. Surround with mixture of 3 parts

Turn crank slowly but steadily until turning becomes difficult, about 5 to 10 minutes. Carefully remove cover, lift out dasher and pack down ice cream with a spoon. Replace cover, draw off water and replenish salt and ice mixture. Cover and allow to harden at least 1 hour before serving.

You can get crushed ice all ready to use from your ice service man—or you can chip off the desired amount from the block of ice in your ice refrigerator.

to a small amount until the child develops some knowledge of values, Mrs. Penton advises. Twenty-five to 50 cents a month is sufficient, and should not be increased until the child has learned to spend the greater part of this for worthwhile things.

One authority on this subject thinks it should be clear to the child that his allowance is of the nature of a right rather than a wage. Another, discussing irregular contributions and regular allowances, says the evidence in families where both methods have been employed suggests that the amount of money used from the family income is less with the allowance plan than with other methods of supplying the child

with money. A third writes: "In any plan for learning the use of money one of the first essentials is that the child have some money, even though it is small in amount, that is his own to manage."

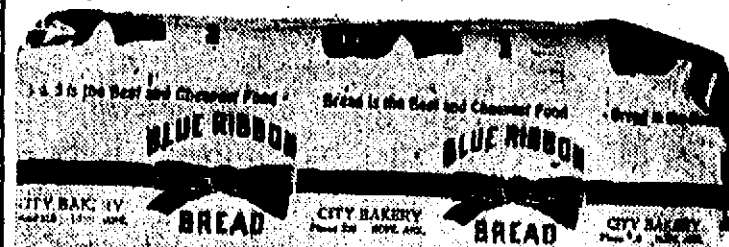

So They Say

The things they say about you in politics no honest man can take. If I stay in politics, I'll slug somebody sure.—Man Mountain Dean, withdrawing as a candidate to the Georgia house.

I love to walk in the rain—just this

40,000 Bushels of Peaches to Kroger

National Grocery Organi-
zation Is Heavier Buyer
in Arkansas

The Arkansas peach deal has now come to a close and one can only think back as to the benefits derived from planting peach trees in Arkansas several years ago. The main instigator of this movement was the late Bert Johnson of the Highland Orchards. Through this man, more than any one individual, peaches were not only grown in Arkansas, but were publicized to a great extent in and out of the state.

With his numerous experiments he learned that in some parts of Arkansas the soil was well adapted to the raising of fancy peaches—fancy not only in size, color and appearance but in flavor as well for he learned that Arkansas peaches had a better flavor than those grown in other states.

In checking up Mr. Johnson's findings the Kroger Grocery & Baking Co., with local headquarters in Little Rock, supported his idea to such an extent that their national headquarters sent field buyers this season into Arkansas and bought more than 40,000 bushels of fancy Elberta peaches. Up until this year this Arkansas organization had succeeded in helping to place Arkansas peaches in such nearby points as Memphis, St. Louis, and Kansas City and the Kroger branches in these sections had such phenomenal success in past years with Arkansas peaches that this year additional branches in Peoria, Ill.; Madison, Wis.; Chicago, Ill.; Fort Wayne, Ind.; and Columbus, Ohio, took on the Arkansas peach with the results that the Kroger Grocery & Baking company this year increased their peach business over previous years 65 per cent.

Child's Allowance

Several Hempstead county home demonstration club members who are carrying demonstrations in child guidance are enthusiastic believers in putting their children on a regular allowance.

Parents who have tried giving an allowance to their children have generally decided that there is much to gain by early training in the management of money, no matter how small the amount, according to Mrs. Ida A. Fenton, extension economist in home management, University of Arkansas College of Agriculture.

An allowance should be kept down

SCOCO is the shortening that keeps your stomach happy—for foods you fry in it are delicious and easy to digest.

Scoco is the perfect shortening for frying, for it is made of pure vegetable oils and holds correct frying temperatures without smoking. Foods you fry in Scoco come out of the pan or kettle with crisp, tender crusts that taste so good and keep your stomach happy. You can enjoy fried foods to your stomach's content, when you fry with Scoco. Try Scoco in frying doughnuts or croquettes, or potatoes or eggs. You'll taste the difference in the first mouthful.

Scoco is the pure, smooth short-

ening—made from choice, carefully selected vegetable oils—brought to you in a modern, money-saving, parchment-lined, waxed carton that keeps dust and contamination out... insures full weight and full value. Buy a package of Scoco at your grocer's today. You'll find... as millions of good cooks already have... that Scoco is the shortening you can depend on every time for making better-tasting, more-healthy foods for less money.

Scoco—the economy pack . . . full-weight . . . fine shortening.

STORIES IN STAMPS

Depression Defeated Van Buren

NO lustier supporter had Andrew Jackson than Martin Van Buren, New York lawyer, senator, staunch advocate of states' rights. Van Buren became Jackson's secretary of state when the border captain attained the presidency in 1828 but he resigned in 1831 to accept the post of minister to England. Thereby hangs a story.

For the Senate, from purely personal motives arising from a partisan grudge, refused to confirm Van Buren's nomination as minister after he had actually sailed for abroad. So the minister was extremely embarrassed but instead of the incident hurting him it added only to his popularity. With the support of Jackson he easily secured the nomination and election to the vice presidency in 1832.

Three years later Van Buren was nominated by the Democratic party and elected President over Gen. W. H. Harrison, his Whig opponent. He had hardly taken office when the panic of 1837 settled over the country, due partly to unbridled speculation and to reaction to Jackson's banking policies. In 1840 Van Buren was renominated for the presidency, but by now a vast part of the electorate held him directly responsible for the depression. This time General Harrison overwhelmingly defeated him. Van Buren was again a candidate in 1844 but was defeated.

Van Buren is shown above on a stamp of the new U. S. regular series, enlarged. (Copyright, 1938, NEA Service, Inc.)

BARBS

Corrigan, determined to stick to flying despite offers of other kinds of jobs, keeps reminding himself: "It's a crate life if you don't weaken."

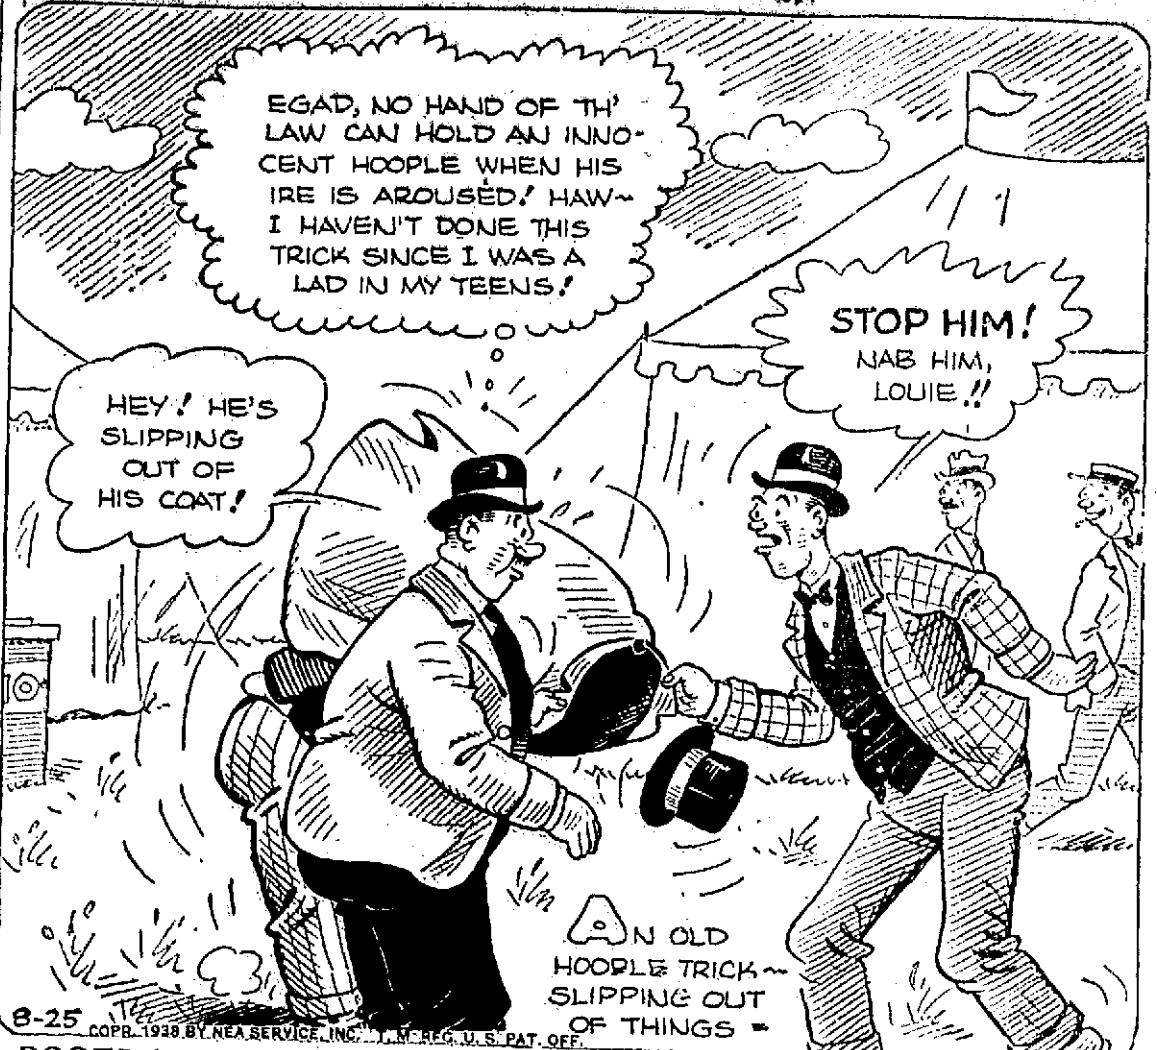

Political candidates in New York have been warned not to paste their literature on the street lights. They can go on belauding the issues but they can't becloud the city.

The latest word is that Il Duce's race-consciousness campaign is intended to keep the men of Rome from becoming too friendly with the belles in the African colonies. That whirling noise you hear is Cleopatra revolving in her grave.

Today's Answer to CRANIUM CRACKER

Question on Page One
 The net gain cannot be figured. Such a gain can be figured only on the basis of the original cost to the seller—either for instance, how much the farmer had paid for the apples if he had bought them, or, in the case at hand, how much it cost him to produce them.

District Softball Finals to Be Played Here Thursday Night

Bruner-Ivory Co. vs. Prescott 7:30

Malvern Meets Texarkana
—Followed by the Winners' Battle

Bruner-Ivory softball team will play the Prescott aggregation Thursday night at 7:30 at the softball field in a semi-final game. Bruner defeated Southern Cafe Tuesday night to advance to the second round while Prescott drew a bye.

Prescott will present a good combination, the team being composed of the best players in that city. Bruner-Ivory also boasts of a well balanced team, led by Roy Taylor, fast ball pitcher. Steadman will probably be behind the bat for Bruner.

The Malvern American Legion team, which was easily victorious in its tilt with Ashdown in the first night play, will take on the Stevens Playground team of Texarkana in the other semi-final game. Malvern has a well balanced club and is favored to win by a comfortable margin.

Malvern will probably pitch their fast ball pitcher again Thursday night. In Tuesday night's game he struck out ten Ashdown batters and allowed only six hits. Probable battery for Malvern is Kidder, pitching, and Hall, catching.

The Hope Travelers Wednesday night won the first game of a double-header from George W. Robinson, 7 to 6, and lost the second to the Highway Department, 18 to 5.

Rolling Into Shape

His work as a councillor at a boys' camp at Raymond, Me., is vigorous enough in itself, but Marshall (Biggie) Goldberg, Pittsburgh's All-American back, has added a daily workout with a 300-pound roller to his conditioning program for the 1938 grid season just around the corner. When Marshall gets going he's as hard to stop as the roller.

Hood, noted leader of the Confederate army.

Housing Problem

HELSINGFORS—With the Finnish government expected to make necessary grants for enlarging the stadium and building of other structures for the Olympic Games in 1940, the greatest worry now entertained by Helsingfors is to provide hotel accommodations for the thousands of visitors. Architects consider time too short to complete modern hotels, but officials have been given to understand that aid will be offered from steamship lines which may send several large liners to the Finnish capital to serve as floating hotels.

Irish Track Coach

SOUTH BEND—John Nicholson, Notre Dame track coach, reveals he had a narrow escape while on a fishing trip to northern Michigan. A cartridge from a deer rifle, apparently

Triple-Threat Man Wanted by Layden

Notre Dame Coach Needs Nine New Men for Good Team

SOUTH BEND, Ind.—(AP)—Coach Elmer Layden hasn't started slinging the blues over his Notre Dame football team yet—but on paper he appears to have the makings of a very mournful composition.

The Irish mentor knows that 21 of the 33 men on his first "three-team" squad of 1937 won't be back. He knows that 19 of the 29 lettermen of 1937 will be among the missing when the Irish open October 1 against Kansas.

Layden wouldn't mind the loss of nine regulars so much if only he had replacements coming up from the second and third teams. But he isn't mulling so much about replacements as he is about putting a capable first team on the field.

One of the biggest holes to be plugged is in the backfield, hard hit with the loss of Jack McCarthy, the No. 1 man in Layden's offense last year. There are numerous candidates, but the Notre Dame system calls for a triple-threat left halfback, and while some of the hopefuls can kick, others can run, and some can pass, Layden is pessimistic about finding a boy who can do all three chores and do them brilliantly.

Other spots which will be hard to fill are right halfback; quarterback (the position played by the brilliant Andy Fupis); right end, where the first four candidates of 1937 will be lost through graduation, and center, guard and tackle.

The experienced backfield men expected to bid strongly for regular jobs include Joe Thesing, only returning member of the starting Irish backfield last fall; Ed Simonich, Tonelli, Corgan, Gotsacker, Riffle, Binkowski, John Sullivan, Stevenson Zontini, Sheridan, Hofer and Burnell.

The Irish schedule: October 1, Kansas at Notre Dame; October 8, Georgia Tech at Atlanta; October 15, Illinois at Notre Dame; October 22, Carnegie Tech at Notre Dame; October 29, Army at New York; November 5, Navy at Baltimore; November 12, Minnesota at Notre Dame; November 19, Northwestern at Evanston; December 3, Southern California at Los Angeles.

lost by a hunter, exploded in his face when he was building a camp fire. The discharge nearly blinded him. Making his way to the nearest town, 20 miles distance, Nicholson saved his sight by obtaining prompt medical attention.

I am frank to confess that there have been times when I have felt that the President, from sheer joy of fighting, battled too hard, when a compromising attitude might have accomplished more than a direct line drive.—Postmaster General Farley.

Iwo Straight

When McLin won the 13th running of the Hambletonian at Goshen, N. Y., Lawrence B. Sheppard, above, became the first owner in the history of the stakes to win the event two years in a row. Sheppard, owner of the Hanover Shoe Farms, Hanover, Pa., purchased the winner, a son of Peter the Great, for \$20,000 10 days before the race.

Answers to Art Krenz Cartoon

1. Hugh Jennings, with Baltimore in 1896, and Art Fletcher, with the New York Giants in 1917, were struck by pitched balls 49 times in one season.
2. Johnny Mautbetsch, Michigan fullback, gained 350 yards from scrimmage against Harvard in 1935. Every time he took the ball to the back. All failed. Harvard won, 7-0.
3. When opposition was raised in California to the chasing and killing of rabbits as a sport, Owen P. Smith, a leader in the coursing game, devised an electrical rail and fixed a fake white rabbit on an extended arm. It was introduced to greyhound racing for the first time at Emeryville, Calif., in 1919.

Tobin because Charlie Grimm had a lot of respect for McCarthy's handling of pitchers, and he figured... well, you know how he figured.

But Pittsburgh needed hurlers desperately and Pie Traynor, having heard glowing reports about the gentleman in question, decided to take a chance. Traynor is glad he took that chance, because the Pirates wouldn't be moving along as smooth as they are without Tobin. He was one of the cheapest pickups the Corsairs have made in years—one, also, which has paid the highest dividends.

And it would be a pretty fair brand of poetic justice if the Pirate pickup scuttled the Yankees' chances in a world series—if and when.

We see by the record books that Tyus Raymond Cobb, the Georgia Peach, nine years in a row, rapped out 200 or more hits a season. Which is a lot of base-hits.

We also observe that Lou Gehrig has passed the 100 mark this season, and if the Iron Horse can manufacture 90-odd more safe blows before October 2 he will have tied Cobb's record. Columbia Lou now has hit safely 200 or more times for eight straight seasons.

Founding out close to 100 hits in a little less than 60 games isn't a simple task, no matter who stands up to the plate, but Gehrig, who has shown

signs of shaking his early season slump, indicates he might do it.

In spite of his rather poor season—possibly the worst he ever has experienced at the plate—Gehrig hasn't been held hitless very often, and if he continues to clout the ball as he has been for the last few days he'll wind up with a .300 average after all.

His current mark, which hovers around .280, is just about 60 points below normal for the Yankee slugger. But all he needs is a couple more four-for-fours, or three-for-fours days and he'll be well on his way to a new spot in the record book.

Add trivia: Oscar Witt of the Indians thinks Joe Gordon will develop into a better second baseman than Charlie Gehringer... which should make him the best second sacker since Napoleon Lajoie. Right? (Right!)

The poor St. Louis Browns (they will be poorer) are said to be approaching the \$60,000 deficit of last year.

During all the years Mickey Cohen-rane caught he never had an injured finger... but he felt he'd as well as many bruises and bumps as one backstop would care to have.

Could it be that all those rave notes on Cam Chapman of the Athletics were premature? It didn't take long for the coast rookie to drop more than 50 points in his batting average.

The PAYOFF

By JERRY BRONFELD
NEA Service Sports Writer
One man's poison is another man's meat. Or something like that.
At any rate, a pitcher named Jim Tobin arrived at the Yankees' training camp two seasons back. He should have come up from Oakland of the

Pacific Coast League the year before, but his trial in the big time was held up by an attack of appendicitis. In that additional year with the Oaks, then, he won 16 and lost 8, which led Joe McCarthy to believe he might have something.

But Tobin failed to make the Yank manager turn cartwheels out of pure joy, so the Yankees and Tobin parted company. Anyway, McCarthy had such people as Gooty Gomez, Red Ruffing, Monte Pearson, and others, to do his pitching that year. They did it, too. Fitted the Yanks to a world title. The Cubs wanted no part of Mr.

Arms Race Drains Golden Life Blood of "Civilized" Nations

By MILTON BRONNER
NEA Service Staff Correspondent
LONDON, Eng.—Every time day and night your watch ticks to show the passing of a single second, each of the big nations of the world has spent upon armaments sometimes a man's whole daily wage, sometimes a whole week's wages.

This is the appalling situation twenty years after the finish of the war to end wars. The world apparently learned nothing from that awful conflict. It is estimated that in 1937 the world spent upon armaments nearly three times as much as was spent in 1913. And in that year 1913 men predicted there would be a world war because nations could not be draining their financial life blood away endlessly upon arms without seeking to make use of them.

Disarmament Failed

In 1922 a last despairing effort was made, under the auspices of the League of Nations, to bring about some measure of disarmament. It was a ghastly failure. Each year after that the expenditures on armaments rose and rose without cease. Here is the tale, which shows why people are groaning under tax burdens when they are allowed to groan—something forbidden

These flashing blasts from big guns are expensive. . . in 1937 the nations of the world earmarked over seven billion golden dollars for war.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisons waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with astringent and burning shows there must be something wrong with your kidneys or bladder.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait. Ask your druggist for Deane's Pills, used successfully by millions for 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Deane's Pills.

in totalitarian states:

1932	\$4,300,000,000
1933	4,300,000,000
1934	5,100,000,000
1935	5,600,000,000
1936	5,800,000,000
1937	7,100,000,000

The figures given are in gold dollars. For the year 1937, \$4,600,000,000 was spent by Europe and \$2,500,000,000 by the rest of the world outside Europe. Of the 64 countries whose expenditures are given in the above figures in 1937, seven great "civilized" nations spent 56 per cent of these vast sums. Between 1932 and 1937 Europe increased its expenditures on armaments by 80 per cent while the rest of the world increased by 37 per cent.

The great difficulty nowadays in estimating what is being spent upon armaments is the secrecy totalitarian states are enabled to maintain. In most democratic countries this is impossible. Budgets have to be submitted to Parliaments and expenditures have to be detailed by cabinet officials, and then approved by the legislators. It is thus that Great Britain is known to have embarked upon a five-year rearmament program which is to cost \$7,500,000,000.

Billions for Munitions

The latest figures on armament budgets for some of the larger nations obtainable by the League of Nations division, which studies these matters, are given below. Comparison is made for the years

	1937	1932
Belgium:	\$ 48,537,720	\$ 32,643,468
Great Britain:	1,274,546,000	429,754,500
Czechoslovakia:	91,948,150	55,991,730
France:	260,292,000	270,546,250
Italy:	313,267,500	248,941,800
Japan:	313,267,500	284,941,800
United States	993,200,000	641,600,000

(estimated, 1937-38)

The last figures given on Germany were 617 million marks for the year

Industry Gaining Back Its Losses

July Industrial Pace Is Highest Since December Last Year

WASHINGTON—(AP)—The Federal Reserve Board estimated Wednesday that industry had gained back in the last seven weeks nearly all of its losses in the previous seven months. The board reported that its index of industrial production climbed from 77 per cent of the 1923-1925 average in June to 83 per cent in July and that "industrial activity rose somewhat further in the first three weeks of August."

The July industrial pace was the highest since December's 84 per cent and the August increases indicated that industry is close to the 88 per cent pace of November, 1937, which was the third month of the industrial decline. The July increase was the first large boost since the board index began a drop from 117 in August, 1937.

An official summary noted increased production of steel, lumber, cement, textiles, shoes, bituminous coal and crude petroleum. Although all types of construction showed little change from June to July, residential building increased.

Accompanying the faster pace of industrial activity, were somewhat smaller gains in employment and pay rolls. The board's index of factory employment rose from 75.9 in June to 76.4 in July and the index of factory pay rolls climbed from 67.2 to 67.5.

1931-32 and 894,300,000 marks for the year 1934-35. They have probably gone soaring far ahead of that since. The figures for 1937 for France apparently show a decrease, but there was probably a very large increase covered by supplemental budgets.

Possibility of Social Welfare

It has been estimated that, if the world had really gone the limit in disarmament, the money spent on arms in the past five years could have been used in doing away with all slums, erecting magnificent hospitals and clinics, creating great public parks and recreation grounds, new and modern schools, splendid municipally-owned apartment houses for people with a modest wage—and at the same time the taxes upon the peoples of the world could have been greatly reduced.

Looking Down From a Japanese Bomber

This unusual picture from the Chinese war front shows what the world looks like to the pilot of a Japanese bombing plane. Bombs are striking around a fleet of Chinese ships in Lake Tungting near Yoyang. Great rings of water swell from the spots in the lake where the bombs miss their marks. Not all the bombs go astray, however, and a ship is seen afire in the center of the photo, and at extreme right is an oil slick where another ship has been sunk.

L. A. Rail Merger Is Again Deferred

ICC Expects Petition to Ask Modification of Its Policy

WASHINGTON—(AP)—The Interstate Commerce Commission deferred action Thursday on the application to merge the Louisiana, Arkansas & Texas Railway Co. and the Louisiana & Arkansas Railway Co.

The commission said it wanted to give the applicant companies an opportunity to request a modification of the commission's plan for consolidation of railroads.

The commission's modification plan had assigned the properties of the Louisiana & Arkansas to the Rock Island-Frisco group, and the properties of the Louisiana, Arkansas & Texas to system No. 10 of the Illinois Central group.

Just \$5 Wiser

A pretty young nurse was selling poppies when a potential buyer, a young man, told her he would give her a \$5 note for a poppy, provided she would promise to nurse him if, at any time, he went to the hospital. She agreed.

"By the way," the young man asked, "where is your hospital?"

"I am at the maternity hospital," meekly replied the pretty nurse, putting the note into the box.

Axe Doesn't Fall

DENVER—(AP)—Not a single Rocky Mountain football coach has been given the axe since a year ago. The Mountain States Big Seven conference teams are sticking with the coaches they had last year and only one change was made in Rocky Mountain conference team ranks. Jack Croft resigned at Montana State to take an executive position at Utah State and was succeeded by Schubert Dyebe, who was coach until Croft was appointed in 1936.

Early Winners

LEXINGTON—(AP)—Halcyon's early stud career has been remarkable. This young horse had only five foals in his first crop, now 2-year-olds, and three have won. Among them is Sweet Patrie, winner of seven races.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks puny.

A more bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 25 cents. Stubbornly refuse anything else.

Judge Criticizes Negro's Handling

Releases Him on \$100 Bail in Prosecution by St. Francis County

FORREST CITY, Ark.—Tony Hicks, 25, negro, central figure in a peonage practice charge brought by his lawyer, was freed on \$100 bond Wednesday when he won a habeas corpus action in Chancery Court.

The negro had been turned over to a St. Francis county planter when he was unable to pay a \$100 fine and costs totaling \$130, on a misdemeanor charge in this (St. Francis) county. Announcing his decision, Chancellor A. L. Hutcheson criticized Justice J. E. McCutchen of Forrest City for imposing excessive fines for petty offenses. He deplored the system in St. Francis county in farming out prisoners and declared that offenders should be tried in the district in which they are arrested.

Expect Arrest of 8 in Probe of Prison Death

PHILADELPHIA, Pa.—(AP)—The arrest of at least eight persons in the "baking death" of four convicts who led a hunger strike in Philadelphia county prison was predicted Thursday by Coroner Charles A. Hersch.

Itching Skin Eczema Torture

Now that clean, powerful, penetrating Moon's Emerald Oil is available, at first class drug stores all over the country, thousands have found speedy relief from the distressing itching and torture of rashes, Eczema, Athlete's Foot, itching toes and feet, poison ivy and other externally caused skin troubles.

Not only does the itching, burning or stinging quickly subside, but healthy healing is promoted.

Ask Ward & Son Drug Store or your own druggist for an original bottle—greaseless—stainless. Money cheerfully refunded, if not satisfied.

Tailored Frocks for Coeds Parade Paris Style Lines

By CAROL DAY

This design, Pattern 8189, will be a favorite with college girls and young business women who have an eye for the distinctly new and wearable which is tailored, but not too tailored. This type of boxy jacket, collarless and straight sleeved, is appearing on new Paris imports, often with the dress in contrast.

A smart way to make it up is to use flat crepe with a wool jacket in a different color—slate blue with Lorenzo brown, gray with dull purple, or two tones of green.

The frock may be worn without its jacket—it's an excellent semi-sports style—and the jacket with other things too. Shop around for a colorful woven or leather belt to wear with it. Pattern 8189 will be as attractive worn under your winter coat, later on.

Pattern 8189 is designed for sizes 12, 14, 16, 18 and 20. Size 14 requires 3 1/2 yards of 39-inch material.

The new Fall and Winter Pattern Book, 32 pages of attractive designs for every size and every occasion, is now ready. Photographs show dresses made from these patterns being worn; a feature you will enjoy. Lite the charming designs in this new book help you in your sewing. One pattern and the new Fall and Winter Pattern Book—25 cents. Pattern or book alone—15 cents.

For a Pattern of this attractive model send 15c in coin, your name, address, style number and size to Hope Star Today's Pattern Bureau, 211 W. Wacker Drive, Chicago, Ill.
